

## PROX CARD OR VEHICLE I.D. TAG

### ONE SYSTEM, ONE READER FOR BOTH

**UP TO 6 FOOT RANGE FROM INSIDE THE VEHICLE**  
It's the industry's best solution to hands-free vehicle access because it uses a standard Prox card reader.

**A ONE SYSTEM SOLUTION**  
24" range for card holders, 6' range VID for VIP's. A perfect solution to hospital staff and doctor's parking.

**ON-LINE OR OFF-LINE CONTROL**

**Access Central**

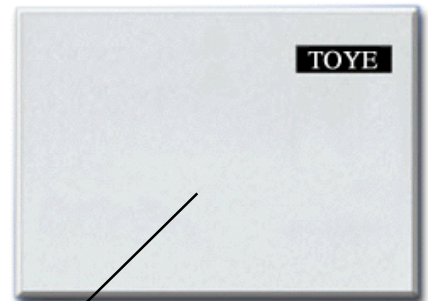

Add vehicle I.D. to a full featured access control system. One software package does building access, elevator control, parking management and tenant billing

**Smart Cartridge**

Use a Smart Cartridge for remote lots with dial-up programming

**Off-Line System With Card Deck Programming**

An O/L Off-Line Stand-Alone Command Module provides a programmable memory for up to 65,000 cards or V.I.D. tags

Use An Access Card Or A Vehicle I.D. Tag To Enter
