

Limited Conditional Warranty

Equipment, Firmware, Software

This warranty is limited to equipment and software actually produced by Toye Corporation, and it specifically excludes equipment, firmware, and software produced by others, but resold or included with Toye produced products.

Toye Corporation warrants equipment, firmware, and software it produces for a period of one year. Products found to be defective will be repaired or replaced as determined appropriate by Toye Corporation. Any defects or “bugs” found to be present in Toye Corporation equipment, firmware, or software will be addressed and resolved when verified in a reasonable time without charge.

Toye Corporation accepts no responsibility whatsoever for any consequential costs or damages associated with the failure of its equipment or software. No other warranty is expressed or implied.

It is the purchaser’s responsibility to determine the suitability of Toye Corporation products for the intended application. Since Toye Corporation does not supply or recommend the use of specific computers, door, gate, peripheral hardware, or other associated devices, no warranty is expressed or implied regarding their suitability or performance.

This warranty is void if equipment or software is modified or altered, or not properly installed and protected from the elements.

All warranty work must be performed at the Toye Corporation factory, with all costs of removal, transportation in both directions, and reinstallation the responsibility of others. As a manufacturer only, Toye Corporation does not provide field inspection or consultation at job sites.

All Toye Corporation equipment, firmware, and software are configuration specific, and therefor not subject to return for credit. Toye Corporation may, at its discretion authorize the return of goods, but only when specifically approved and authorized by Toye Corporation in writing.
